Commissioner for Patents

Applicant's reply filed on January 14, 2008 in response to the Restriction requirement dated December 14, 2007 has been acknowledged.

Upon further consideration, it is determined that the currently elected group of claims 55-70 are directed to an invention that is independent or distinct from the invention originally claimed for the reasons previously set forth in the Restriction requirement dated August 27, 2007. Currently pending claims are directed to biological target undergoing flux rolling along target-specific binding agent, which was not required by the originally claimed invention.

Since applicant has received an action on the merits for the originally presented invention and currently pending claims are directed to an invention that is independent and distinct from the invention originally claimed, currently pending claims 55-70 have been withdrawn from consideration non-elected invention. Therefore, currently no claim is pending under consideration.

Since the submission appears to be a bona fide attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a). If a notice of appeal and the appeal fee set forth in 37 CFR 41.20(b) were filed prior to or with the payment of the fee set forth in 37 CFR 1.17(r), the payment of the fee set forth in 37 CFR 1.17(r) by applicant is construed as a request to dismiss the appeal and to continue prosecution under 37 CFR 1.129(a). The appeal stands dismissed.
